

General Manager Overview: Fall 2025

August

September

October

November

December

January

Welcome

Welcome to an exciting lineup of core promotions, wellness education, scratch-made LTO menu items, and engagement activities scheduled for this fall. Developed in alignment with our 2025-2026 Promotions Planner, each month's featured events are designed to engage and educate students, generate interest, encourage belonging, and increase satisfaction while showcasing the student nutrition program.

For quick reference, this Overview is divided according to month, grade level, and featured promotional content, including:

BITESCIENCE - BiteScience is an innovative science-based nutrition education program that offers students a hands-on approach to understanding how food fuels their bodies and minds and the benefits of balanced wellness habits.

NEW BiteScience Classroom/Lunchroom Activities - Easy-to-implement activities created to reinforce each month's wellness education focus. Based on district and site considerations, the activities offer fun ways to spark students' imaginations and encourage hands-on participation.

SCRATCH-MADE LTO MENU FEATURES - Students are looking for something new, including fresh flavors and exciting twists on classic meals. Our new Scratch-Made Secondary LTO Menu Features introduce and promote limited-time offerings. These scratch-made menu items showcase the quality and freshness of the ingredients while satisfying students' food cravings and boosting participation.

SUPER BITES - Super Bites is a bi-monthly feature centered around highlighting superfoods and seasonal produce that not only taste great but also deliver amazing health benefits. Through student insights of our food, we've found many students asking for tasty recipes that boost their personal health and wellness goals. Super Bites introduces students to the diversity of produce grown in their local communities - all while making school meals more vibrant, engaging, and delicious. Under the Super Bites program, students will be provided with "Did you know" facts and other nutritional information about these items.

NATIONAL FOOD DAYS - National Food Days are themed celebrations highlighting specific foods, such as National Apple Day, National Nacho Day, or Pancake Day. These enjoyable, food-centered events offer an excellent opportunity to break the lunchroom routine, add excitement and variety, boost student engagement and participation, and cultivate a sense of belonging and school spirit.

Our promotions are supported with a full complement of age-appropriate marketing materials created especially for your students. This kit contains print materials (one tube and one corevelope) for your Elementary, Middle, and High School sites. The contents of each are outlined on the following pages. As in the past, additional digital resources are available to enhance the promotions and can be accessed by visiting the Fall Promotions Link at sodexosites.com/2025/fall/k12

Finally, each school will receive a separate envelope containing our new **Segment Value Proposition** materials. These materials will support our value proposition's continuous deployment and integration with both our internal teams and external audiences. A value proposition is crucial to communicate our value and the benefits our clients and customers experience to grow our business and provide the best service possible.

Best of luck in making our 2025-2026 School Year a success.

September
